OBJECTIVE

A frontend developer focused on building modern, responsive web experiences with React, JavaScript, Tailwind CSS, and Next.js. I enjoy turning ideas into polished, functional products.

EXPERIENCE

Frontend Developer

Independent Freelance Projects

June 2024 - Present

- Designed and built intuitive websites using React and Tailwind CSS.
- Implemented responsive design principles, ensuring optimal UX across devices.
- Managed projects using GitHub for version control and deployment.

Personal Live Project

CrabAdvice

A comparison platform helping individuals and small businesses choose the right digital tools, built with Next.js, React, Tailwind CSS, and Sanity

SELECTED PROJECTS

SmileCare

Dental Clinic Website

Created a responsive website emphasizing trust and easy appointment scheduling using React.

Live - <https://smilecare-dental-website-henna.vercel.app/>

Whitespace Landing Page

Developed a modern SaaS landing page with a polished UI focusing on user engagement and conversion.
